IMPORTANT NOTICE

There has been intelligence received regarding a WhatsApp group that a lot of children in West Cumbria appear to be a part of it's called "100 before 2027." It is encouraging children to commit self-harm and suicide with the goal of the group to have 100 children commit suicide before 2027.

Police have been made aware of this through a Facebook post from a parent raising awareness to other parents to check their child's phone and block the group. At this time there is very little known about this group chat. If any parents or students come forward as members or victims of the group or disclose any information regarding this group, please report directly to police.
